# SUNAIR PRODUCTS IS EXPANDING ITS PAG LUBRICANT PROGRAM AND EUROPEAN OPERATION

The New CoolPro™ Line of Mobile A/C Refrigerant Lubricants

Sunair is proud to announce the addition of its New Premium Single End Capped PAG Lubricant. Our new Single End Capped PAG has all of the same quality ingredients as our Double End Capped PAG, but it comes with an even more affordable price. It is available in a wide range of sizes and is now available in Metal Cans (Europe Only). Please see the information below.

Sunair is also proud to announce the installation of its own Lubricant Filling Equipment in our European Facility in The Netherlands. This state of the art German equipment will enable us to fill a wide range of container sizes and types. From small milliliter bottles up to 20 Liter pails. All containers will be Nitrogen Charged for added quality and long term storage.
